1. Brainstorming & Ideation Phase — AI-Powered Automated Comic Creation

SHRI KRISHNASWAMY COLLEGE FOR WOMEN, ANNA NAGAR, CHENNAI - 600040

Team ID: SWTID-2026-3367

Team Leader: Akshaya.Y

Team Members: Aayisha Siddiqa.A, Koushika.D, Lekha.M, Pradeepa.M

1. INTRODUCTION

ComicCraft is a web-based AI application that converts a user's creative idea into a personalized comic story. It accepts a story prompt, character name, setting, tone, and art style, then combines AI-based story generation, illustration generation, preview, and PDF export.

2. OBJECTIVES

- Identify the problem of manually creating story, dialogue, illustrations, and layout.
- Propose an AI-assisted solution for automated comic creation.
- Identify the main user inputs and expected output.
- Select suitable AI technologies.
- Define the overall user workflow and initial features.

3. PHASE WORKFLOW

4. DETAILED EXPLANATION

The ideation phase defines the project before implementation. The supplied project document selects:

- **Gemini Flash** — For generating fast, structured comic outlines.
- **Gemini Pro** — For detailed narration and dialogue generation.
- **Stable Diffusion** — For comic-style illustrations.

5. GITHUB-READY CODE / STRUCTURE

```
git init
git add .
git commit -m "Initial ComicCraft project setup"
git branch -M main
git remote add origin <YOUR_GITHUB_REPOSITORY_URL>
git push -u origin main
```

6. GITHUB FILES / DELIVERABLES

Type	File / Directory Name	Purpose
Documentation	README.md	Project Overview & Setup Guide
Documentation	docs/ideation.md	Phase 1 Specifications & Design
Configuration	.gitignore	Git Exclude Rules
Source Code	app/	Application Logic & Backend Routing
Frontend	templates/	HTML Templates
Frontend	static/	Stylesheets & Frontend Assets
Dependencies	requirements.txt	Python Dependencies

7. EXPECTED OUTCOME

At the end of Phase 1, the corresponding part of ComicCraft should be clearly documented, implemented, or verified according to the purpose of the phase. The actual completion status should be based on the student's repository and execution.

8. PHASE CONCLUSION

Phase 1 provides a structured foundation for the next stage of ComicCraft and keeps the project organized for GitHub-based development and evaluation.
